

CGF Centrifuge

LC-04P-L

- ◆ Brushless DC motor drive, energy saving and environmental protection
- ◆ A multi-purpose machine, can prepare PRP, CGF, APRF, iPRF, customized operation mode, to meet different centrifugal preparation requirements
- ◆ Full touch screen control, preset program, one key call, intuitive display, real-time display of running status
- ◆ Multi-program parameter storage function; Door opening warning
- ◆ Achieve platelet rich plasma centrifugation, highly concentrated growth factor fibrin, platelet rich fibrin centrifugation, injection platelet rich centrifugation; And conventional plasma centrifugal and other functions

LC-04P-L

Model	LC-04P-L
Max speed	4000 RPM
Max RCF	1780xg
Timer	0-99min
Rotor capacity	8 pcs PRP tube
Voltage	100-240V 50-60Hz
Dimension(mm)	260x300x210
Package(mm)	330x350x280
G.W./N.W.	6/5kg
